

# AI Business Workshop - Class Notes

Core Principle:

"Most people think they are learning how to prompt. What they are really learning is how to train AI to understand their business."

To do this, build your AI Employee Handbook with 4 files:

1. me.md - Your identity and communication preferences.
2. brandguidelines.md - Your brand voice pillars and tone.
3. rules.md - Standard guardrails and formatting criteria.
4. companyknowledge.md - Pricing, packages, processes and FAQs.
