Your personal knowledge assistant

The Secret to Better AI

THE AI EMPLOYEE HANDBOOK

Most people focus on prompts.

The professionals focus on **context**.

Prompting is important. **Context is everything.**

AI performs best when it understands:

- Who you are
- What your company does
- How you communicate
- Your goals
- Your rules

The Four Files Every Business Should Have

1

Me.md

2

BrandGuidelines.md

3

Rules.md

4

CompanyKnowledge.md

Together these become your **AI Employee Handbook**.

Me.md

Who Am I?

Teach AI the things that make you *you* – so every response feels personally tailored.

| "I am a Realtor serving the San Gabriel Valley specializing in first-time homebuyers."

✓ Result: AI begins responding as if it truly understands you.

→ Your background &
experience

→ Goals & skills

→ Communication style

BrandGuidelines.md

FILE 2 OF 4

Teach AI how your brand speaks — so every piece of content sounds like *you*.

What to Include

Brand Voice

The personality behind
your words

Audience

Who you're speaking to

Messaging

Core ideas you always
communicate

Writing Style

Tone, format, and
vocabulary

Example Voice Attributes

Professional

Friendly

Educational

No Hype

✓ Result: Consistent marketing and communications across every channel.

Rules.md

What Standards Do We Follow?

Set the guardrails that keep your AI reliable, accurate, and on-brand every single time.

✅ Result: More reliable, trustworthy AI responses.

- ☐ Never invent facts
AI must only use verified information
- ☐ Ask questions if information is missing
Clarify before assuming
- ☐ Keep explanations simple
Communicate clearly for your audience
- ☐ Focus on accuracy
Quality over speed

CompanyKnowledge.md

FILE 4 OF 4

Give your AI a complete picture of your business — turning it into an instant company expert.

Products & Services

Everything you offer, described in detail

Pricing

Rates, packages, and tiers

FAQs

Common questions and your best answers

Team Information

Who does what and how to reach them

Processes

How your business operates day-to-day

✅ Result: AI becomes a true company expert — ready to assist customers, staff, and partners.

AI Can Build Software Too

You no longer need to be a programmer to create software. Describe what you want — and let AI help build it.

Popular AI Coding Platforms

ChatGPT

Claude

Gemini

Popular AI Development Environments

Antigravity

Claude Code

Cursor

GitHub Codex

Best Pairings

ChatGPT

→ Cursor, Codex

Claude

→ Claude Code, Cursor

Gemini

→ Antigravity, Google AI Studio

Goal: Describe what you want and let AI help build it — no coding experience required.
